FINANCIAL REPORT

YEAR ENDED 31 DECEMBER 2012

FINDERS RESOURCES LIMITED

DIRECTORS' REPORT

Your Directors present their report on Finders Resources Limited ("Company") and its controlled entities ("consolidated entity" or "Group") for the year ended 31 December 2012.

Directors

The Directors in office during the financial year and up to the date of this report are:

| | |
|------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Russell J Fountain</i> <i>(Appointed 30 March 2004)</i> | — <i>Non-Executive Chairman</i> |
| Qualifications | — BSc (University of Sydney), PhD (University of Sydney), FAIG |
| Experience | — Dr Fountain has over 40 years of successful international experience in all aspects of mineral exploration, project feasibility and development of mining projects. |
| Interest in Shares and Options | — 7,505,277 Ordinary Shares |
| Special Responsibilities | — Member of Remuneration Committee |
| Other Listed Company | — Geopacific Resources NL (appointed 9 May 2006) |
| Directorships in last 3 years | |
| | |
| <i>Christopher B Farmer</i> <i>(Appointed 30 March 2004)</i> | — <i>Managing Director</i> |
| Qualifications | — BSc (Hons) (University of Southampton), MBA (Ashridge), PhD (Royal School of Mines, Imperial College) |
| Experience | — Dr Farmer has over 20 years of international experience in all aspects of exploration, with a strong emphasis on business development. |
| Interest in Shares and Options | — 5,965,695 Ordinary Shares 1,500,000 Ordinary Shares under employee incentive plan |
| Special Responsibilities | — Nil |
| Other Listed Company | — Nil |
| Directorships in last 3 years | |
| | |
| <i>Robert P Thomson</i> <i>(Appointed 6 January 2009)</i> | — <i>Executive Director - Development</i> |
| Qualifications | — BE (Mining) (University of Queensland), MBA (University of Wollongong), FAusIMM |
| Experience | — Mr Thomson has over 30 years of Australian and international mining experience. He has worked on 5 Asian development projects in the last 13 years including GM Development, Chatree Gold Mine in Thailand and Project Director, Sepon Gold Mine in Laos. Mr Thomson was CEO of Climax Mining Limited from 2003 to 2006 and Asian Mineral Resources Limited from 2006 to 2008. |
| Interest in Shares and Options | — 750,000 Ordinary Shares under employee incentive plan 2,000,000 options expiring 8 May 2014 (exercise price - \$0.30) |
| Special Responsibilities | — Nil |

FINDERS RESOURCES LIMITED

James H Wentworth

(Appointed 8 March 2011)

Qualifications

Experience

Interest in Shares and Options

Special Responsibilities

Other Listed Company

Directorships in last 3 years

— **Finance Director**

— LLB (Hons), BCom (University of Queensland)

— Mr Wentworth is a qualified solicitor with over 20 years of financial and commercial experience, focussing on the mining and mining services industries. Prior to joining the Company, he spent nine years with Sydney-based private equity firm CHAMP Ventures where he was a director and member of the investment committee.

— 1,100,000 Ordinary Shares under employee incentive plan

— Nil

— Mastermyne Group Limited (appointed 30 March 2011)

Stephen R de Belle

(Appointed 27 November 2004)

Qualifications

Experience

Interest in Shares and Options

Special Responsibilities

Other Listed Company

Directorships in last 3 years

— **Independent Non-Executive Director**

— BA (Macquarie University), MSc (London University), MTCP (University of Sydney)

— Mr de Belle has been closely involved with the start-up and operation of iron ore, coal, base metals, gold and petroleum projects and companies, and has particular expertise in the development and financing of projects in the resources and infrastructure sectors both in Australia and overseas. He is currently managing director of a geothermal and power technology company.

— 4,588,265 Ordinary Shares

— Chairman of Audit, Remuneration and Nomination Committees

— Mantle Mining Corporation Limited (appointed 3 July 2006)

Stephen J Lonergan

(Appointed 22 March 2005)

Qualifications

Experience

Interest in Shares and Options

Special Responsibilities

Other Listed Company

Directorships in last 3 years

— **Independent Non-Executive Director**

— LLB (Hons) (Australian National University), LLM (McGill University)

— Mr Lonergan is a commercial lawyer based in Sydney with more than 30 years experience in the Australian and international mining industry, having been General Counsel of Pancontinental Mining Group, a partner at Baker & McKenzie Sydney, and General Counsel and Company Secretary of Savage Resources Limited and CBH Resources Limited. He is currently Executive Director – Commercial and Company Secretary of KBL Mining Limited.

— 70,733 Ordinary Shares

— Member of Audit, Remuneration and Nomination Committees

— Paradigm Metals Limited (18 November 2003 – 31 December 2012)

KBL Mining Limited (appointed 23 November 2010)

FINDERS RESOURCES LIMITED

T Quinn Roussel

(Appointed 25 March 2009)

Qualifications

- **Non-Executive Director**
- BSc (Mining Engineering) (Colorado School of Mines), MBA (University of South Carolina and Wirtschafts Universitat – Wien)

Experience

- Mr Roussel is a US based Principal of Resource Capital Funds (“RCF”), a mining-focused private equity firm investing in hard rock mineral commodities at various stages of development. Prior to joining RCF he was Director of Business Development at Asian American Coal in China. He has also served as an engineer in coal and gold mines.

Interest in Shares and Options

- Nil

Special Responsibilities

- Member of Remuneration Committee

Other Listed Company

- Malaga Inc (23 June 2011 – 13 December 2012)

Directorships in last 3 years

Company Secretary

Ian H Morgan

(Appointed 27 November 2004)

Qualifications

- BBus (NSW Institute of Technology), MCom Law (Macquarie University), Grad Dip App Fin (Securities Institute), CA, ACIS, CSA, MAICD, FFin

Experience

- Mr Morgan is a Chartered Accountant and Company Secretary with over 30 years of experience in accounting and corporate administration. He has been involved in the resources sector for many years and his current clients include being Company Secretary of King Island Scheelite Limited, Malabar Coal Limited, Metals Finance Limited and Newcastle Coal Infrastructure Group Pty Ltd.

Principal Activities

The principal activities of the consolidated entity during the financial year were -

- a) Pre-development activities in preparation for the development of the Wetar Copper Project; and
- b) Exploration for copper and gold in Indonesia.

There was no significant change in the nature of those activities during the financial year.

Review of Operations and Business Strategies

Securing access to the Wetar Copper Project (“Project”) to commence development was the Group’s priority during the year.

Access to the Project area will be permitted on the earlier of either the grant of a production stage forestry use permit (referred to as a “*Pinjam Pakai*” in Indonesia), or the completion of a government sponsored spatial plan in which parts of the Province of Maluku (including the Project area) are rezoned, particularly the conversion of production forest areas to non-forestry zones.

FINDERS RESOURCES LIMITED

The production stage forestry use *Pinjam Pakai* is an application made by the Group and was initiated following the grant of two exploration *Pinjam Pakai* during the year, a pre-requisite to the application for the *Pinjam Pakai*. A significant milestone in this application was reached in February 2013 when the in-principle permit (referred to as the “*Izin Prinsip*”) was issued by the Minister of Forestry. **The *Izin Prinsip* permit is the key milestone in the process leading to the issue of the *Pinjam Pakai* at which time construction can commence.** The in-principle permit approves the use of forest land for copper production operations and supporting facilities subject to completion of certain administrative requirements, including the completion of final boundary surveys and calculation of the payable tree inventory by members of the Forestry Department and payment for tree compensation and land use resulting from the survey. The Group is in the process of completing the administrative requirements and is targeting the issue of the *Pinjam Pakai* in mid-2013.

The completion of the new Spatial Plan for the Province of Maluku is a national requirement by law. All internal governmental administrative steps have been completed and the document is pending Ministerial signature. The Group expects that the rezoning will be approved in due course to promote investment and development in the province and in Indonesia generally. A number of new spatial plans for other provinces in Indonesia have been approved.

The Project is designed to produce 25,000 tonnes of copper cathode per annum at full capacity in two stages –

- a) Stage 1 – expansion of the existing solvent extraction electrowinning (SX-EW) plant to produce 7,000 tonnes copper cathode per annum;
- b) Stage 2 – construction of an 18,000 tonnes per annum plant to lift total copper cathode production to 25,000 tonnes per annum.

As reported previously, the Group had retained some key personnel and its local workforce in anticipation of securing forestry clearance and positioning itself to re-start the plant and commence construction activities with minimal delays. During the year, the existing personnel were tasked with low key engineering work, more detailed feasibility study design and time critical activities, wherever possible.

In 2011, the Group secured six marine fuel oil generators which will provide the power requirements for the Project. Refurbishment of two of the generators continued during the year and was well advanced at year-end. These two generators, when installed, will provide sufficient power to run the expanded SX-EW plant to produce up to 7,000 tonnes copper cathode per annum.

Debt finance for the project development has also been completed to an advanced stage. These include negotiating the terms of the facilities and loan documentation. The Group had received credit approval for the majority of the financing required for the Project development, comprising US\$138 million from three international mining project financiers (Credit Suisse AG, Barclays Capital and Standard Bank Plc, the latter subsequently replaced by Commonwealth Bank)) and mezzanine finance on a subordinated basis to the senior debt providers. Due to the time that has elapsed, the credit approvals will need to be refreshed. The Company expects the financiers will reconfirm their approvals following the issue of the *Pinjam Pakai*.

Exploration activity at the Ojolali Gold-Silver Project in Sumatra was kept to a minimum.

FINDERS RESOURCES LIMITED

Operating Results

The consolidated loss after income tax for the year was \$19,800,000 (2011: \$18,366,000).

A significant part of the loss was contributed by interest and other financing costs (\$6.5 million) incurred in connection with the \$8.0 million increase in the loan facility, extension of the loan repayment date and Wetar project financing. In consideration for the variations to the loan facility, the lenders were issued options over unissued shares in the Company. The value of the options are being amortised, resulting in a charge of \$3.5 million to the profit and loss statement. Other financing expenses incurred included legal costs in settling the project financing documentation.

In view of the uncertainty of timing of access to the Project area, the Group conducted a review of its cost structure and implemented cost-cutting initiatives in the middle of the financial year. Operating costs, excluding finance costs, were reduced by about 30% in the second half-year. The Group continues to monitor its costs closely, with a view to minimizing its cash burn pending the start of development at Wetar.

Funding was sourced from the loan facility provided by three of the Company's major shareholders, Resource Capital Funds ("RCF"), Taurus Funds Management Pty Ltd ("Taurus") and Acorn Capital Limited ("Acorn"). Funds were also received from a US\$5.5 million converting note facility from Standard Bank Plc as well as from refunds of Value Added Tax (\$2.9 million) received from the Indonesian Tax Office.

Financial Position

RCF, Taurus and Acorn provided a \$16.0 million interest bearing loan facility (increased from \$8.0 million in the previous year) to the Company. At balance date, the Company had \$14.44 million in loans from the lenders, of which \$440,000 was converted into shares in January 2013. The remaining loan of \$14.0 million is repayable on the earlier of the project equity raising for development of the Project or 24 October 2013.

As noted above, the Group is now awaiting the grant of a *Pinjam Pakai* or the rezoning of parts of the Province of Maluku, including the Project area. The Group will be in a position to complete project financing and raise the required capital for repayment of the loan and for working capital following the issue of the *Pinjam Pakai* or the forestry rezoning. However, until it is able to do so and as referred to in Note 1 of the financial statements, the continuing viability of the Company and its ability to continue as a going concern and meet its debts and commitments as they fall due are dependent upon the timely grant of the *Pinjam Pakai* or completion of the forestry rezoning, the Company being successful in securing project finance and raising additional equity for the Project development and loan repayment and, until project finance is secured, the Company being able to secure interim funding. The Company successfully raised \$3.5 million in January 2013 from a share placement pursuant to a subscription agreement with Provident Capital Partners Pte Ltd ("Provident") (refer Note 30). Until the matters referred to in the foregoing are finalised, there is material uncertainty that may cast significant doubt as to whether the Company will continue as a going concern and, therefore, whether it will realise its assets and settle its liabilities and commitments in the normal course of business and at the amounts stated in the financial report.

Outlook

Notwithstanding the delays in gaining access to the site to commence project development, the Directors are optimistic that the *Pinjam Pakai* will be issued on a timely basis, which will enable the Company to finalise project financing and commence development.

FINDERS RESOURCES LIMITED

Planning for the development has begun with a review of the bankable feasibility study and project financing model, with a view to re-engaging the financiers. The Group is also re-initiating discussions with key suppliers and contractors. The project financiers have been kept up-to-date, however as noted above, the previously approved facilities will have to be re-submitted to the respective credit committees for confirmation.

Significant Changes in State of Affairs

The following significant changes in the state of affairs of the consolidated entity occurred during the financial year:

- a) In January, the US\$1.5 million Convertible Note (refer Note 13) was converted into 3,992,207 shares in the Company at an issue price of \$0.36 per share on maturity of the Note.
- b) In March, the Company raised US\$5.5 million from Standard Bank Plc pursuant to mandatory converting notes, which will convert into shares in the Company on or before 16 March 2018 at a conversion price of \$0.427 per share (refer Note 15). In consideration, the Group entered into a copper cathode offtake agreement with Standard Bank Plc for 40% of its copper cathode production from the Wetar Copper Project.
- c) In June, the Company secured an \$8.0 million increase in the loan facility from RCF, Taurus and Acorn, to a fully drawn facility of \$8.0 million previously provided by RCF and Taurus. The facility is unsecured with interest at 8% per annum and was repayable on the earlier of the project equity raising for development of the Wetar project or 24 October 2012. In consideration for the increased facility, the Company granted options over a total of 22,857,144 shares in the Company to the lenders, exercisable at \$0.35 per share and expiring on 6 June 2017.
In October, the lenders agreed to extend the deadline for repayment of the \$16.0 million facility for a further 12 months to 24 October 2013 to allow permitting and project financing to be completed. In consideration for the extension, the Company granted options over a total of 31,298,904 shares in the Company to the Lenders, exercisable at \$0.2556 per share and expiring on 22 October 2017 (refer Note 13).
- d) In December, the Company entered into a subscription agreement with Provident (refer Note 30), the financial terms of which were as follows:
 - Initial placement of 17.5 million shares at \$0.20 each to raise \$3.5 million.
 - Provident was granted options over 50 million shares at \$0.20 per share. The options can only be exercised if:
 - The Company receives the *Pinjam Pakai* for the Project; or
 - the Maluku forestry rezoning is approved;in both cases before 30 September 2013. The options must be exercised within 20 business days of the conditions being satisfied.
- f) Acorn elected to convert their outstanding loan of \$2.0 million to shares at the same price as the placement to Provident, being \$0.20 a share. A total of 10 million shares have been issued to Acorn, 7.8 million in December 2012 and 2.2 million in January 2013.

FINDERS RESOURCES LIMITED

Likely Developments and Expected Results

Other than as referred to in this report, further information as to likely developments in the operations of the consolidated entity and the likely results of those operations would, in the opinion of the Directors, be speculative and/or prejudicial to the interests of the consolidated entity.

Significant Events after Balance Date

As noted elsewhere in this report, subsequent to balance date -

- a) The in-principle permit or “*Izin Prinsip*” in connection with the Group’s application for a *Pinjam Pakai* for the Project was granted by the Minister of Forestry. Subject to completion of a number of administrative requirements specified in the *Izin Prinsip*, the *Pinjam Pakai* will be issued, at which time project financing and thereafter construction can commence.
- b) Following shareholders’ approval at an Extraordinary General Meeting held on 18 January 2013, the Company issued 17.5 million shares at \$0.20 per share to raise \$3.5 million from a placement pursuant to a subscription agreement with Provident. Pursuant to the agreement, the Company also issued 50 million options exercisable at \$0.20 per share and expiring on 30 September 2013 to the investors.
- c) 2.2 million shares were issued at \$0.20 per share on conversion of loans amounting to \$440,000 (refer Note 13(b)).

Other than the above, the Directors are not aware of any matter or circumstance, which has arisen since the end of the financial year that has significantly affected or may significantly affect:

- a) the operations of the consolidated entity;
- b) the result of those operations; or
- c) the state of affairs of the consolidated entity;

in subsequent financial years.

Dividends Paid or Recommended

There was no dividend paid, recommended or declared but not paid, during the financial year.

Environmental Issues

The consolidated entity adopts “best practice” environmental management techniques from the wider mining community, particularly Australian standards of operation, in managing environmental issues at all its project areas.

In each of the project areas, the consolidated entity has engaged reputable independent consultants to undertake extensive environmental studies, including base line studies, design of monitoring programmes and rehabilitation. The consolidated entity is not aware of any endangered species of flora or fauna in these project areas.

Projects are subject to relevant environmental regulation in Indonesia and will themselves have varying levels and types of potential impact on the natural environment. At Ojolali, exploration work typically has a minimal impact on the environment. At Wetar, the location has historical degradation from former gold mining operations and the baseline reflects water quality in an area of acid rock drainage, monitoring activities are conducted under the auspices of an approved environmental

FINDERS RESOURCES LIMITED

permit and all environmental studies and on-going monitoring results are reported on a quarterly basis to the relevant Indonesian authorities.

The consolidated entity is required to comply with Indonesian laws and regulations regarding environmental matters, including disturbance and rehabilitation issues and the discharge of hazardous waste and materials.

Meetings of Directors and Board Committees

Attendances by each director during the year were as follows:

| | <u>Directors Meetings</u> | | <u>Committee Meetings</u> | | | |
|----------------------|---------------------------|-----------------|---------------------------|---------------------|---------------------------|-----------------|
| | <u>Eligible to attend</u> | <u>Attended</u> | <u>Audit</u> | <u>Remuneration</u> | <u>Eligible to attend</u> | <u>Attended</u> |
| Russell J Fountain | 18 | 17 | - | - | 1 | - |
| Christopher B Farmer | 18 | 18 | - | - | - | - |
| Robert P Thomson | 18 | 18 | - | - | - | - |
| Stephen R de Belle | 18 | 16 | 2 | 2 | 1 | 1 |
| Stephen J Lonergan | 18 | 18 | 2 | 2 | 1 | 1 |
| T Quinn Roussel | 18 | 18 | - | - | 1 | 1 |
| James H Wentworth | 18 | 18 | - | - | - | - |

The Nomination Committee did not meet during the year. All director appointment issues were dealt with by the whole Board at Directors meetings.

Indemnifying Directors and Other Officers

The Company's constitution provides that "to the extent permitted by the *Corporations Act 2001*, the Company may indemnify:

- a) every person who is or has been an officer of the Company; and
- b) where the Board of Directors considers it appropriate to do so, any person who is or has been an officer of a related body corporate of the Company;

against any liability incurred by that person in his or her capacity as an officer of the Company or of the related body corporate (as the case may be)."

During the financial year, the Company paid a premium and other charges for a Directors and Officers Liability Insurance Policy for the benefit of the directors, secretary, officers and employees of the Company. The policy prohibits disclosure of the terms of the policy, including the amount insured, the insuring clauses and exclusions and the amount of premium paid.

Options

As referred to above, the following options were granted during or since the end of the financial year -

- a) in consideration for an \$8.0 million increase in the loan facility from RCF, Taurus and Acorn, the Company issued 22,857,144 options over unissued shares in the Company to the lenders. The options are exercisable at \$0.35 per share and expire on 6 June 2017.

FINDERS RESOURCES LIMITED

- b) in consideration for an extension to the repayment date for the loan above, the Company issued 31,298,904 options over unissued shares in the Company to the lenders. The options are exercisable at \$0.2556 per share and expire on 22 October 2017.
- c) pursuant to the subscription agreement with Provident referred to above, the Company has issued 50 million options over unissued shares exercisable at \$0.20 per share at any time up to 30 September 2013.

Other than the above, no options over unissued ordinary shares were granted during or since the end of the financial year.

The options over unissued ordinary shares outstanding at the date of this report are detailed in Note 16 to the financial statements, with the exception of the 50 million options issued pursuant to the Provident subscription agreement referred to above. The option holders do not have any right by virtue of the options to participate in any share issue of any other body corporate.

Since the end of the previous financial year, 500,000 shares have been issued at a price of \$0.30 per share by virtue of the exercise of employee incentive options.

Non-audit Services

The Company may engage the services of its auditor on other assignments in addition to the statutory audit where the firm's expertise and experience with the Company are beneficial.

During the financial year, the Company engaged the auditor, PricewaterhouseCoopers, for tax consulting services, for which the Company paid \$19,300 (2011: \$30,680) in fees. A subsidiary of the Company audited by PricewaterhouseCoopers Indonesia also paid \$117,154 (2011: \$114,692) to that firm for taxation services.

The Directors have considered the level and nature of the non-audit services provided by the auditor during the year and, in accordance with advice received from the Audit Committee, is satisfied that the provision of the non-audit services during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Directors are satisfied that the nature and scope of the non-audit services provided by the auditors did not compromise the auditor independence requirements of the *Corporations Act 2001*.

Full details of the auditor's remuneration are set out in Note 24 to the financial statements.

Auditor's Independence Declaration

The auditor's independence declaration pursuant to section 307C of the *Corporations Act 2001* is set out on page 15.

Rounding of Amounts to Nearest Thousand Dollars

The Company is of a kind referred to in Class Order 98/100 dated 10 July 1998 issued by the Australian Securities and Investments Commission and in accordance with that Class Order, amounts in the Directors' Report and the Financial Report have been rounded to the nearest thousand dollars, unless otherwise stated.

REMUNERATION REPORT

This report details the nature and amount of remuneration for key management personnel.

Remuneration policy

The remuneration policy is designed to align key management personnel objectives with shareholder and business objectives by providing a fixed remuneration component and offering specific long-term incentives based on key performance indicators affecting the consolidated entity's operational and financial results. The policy ensures that the remuneration level is commensurate with the person's duties and responsibilities and that remuneration is competitive in attracting, retaining and motivating employees of the highest calibre, as well as creating goal congruence between directors, executives, shareholders and all other stakeholders.

The remuneration policy, which sets the terms and conditions for senior executives, was developed by the Remuneration Committee, after seeking professional advice from independent consultants and was approved by the Board.

All key management personnel receive a base salary, superannuation and may benefit from the Company's performance bonus plan. The Board (including non-executive directors) are remunerated by means of a fixed annual salary and superannuation, having regard to comparable companies from time to time.

The employment conditions of the managing director and specified executives are formalised in contracts of employment.

Board policy is to remunerate non-executive directors at market rates for time, commitment and responsibilities. The Remuneration Committee determines payments to the non-executive directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required.

The Company's Constitution requires that the remuneration payable from time to time to non-executive directors shall be an amount not exceeding in aggregate a maximum sum that is from time to time approved by resolution of the Company, currently \$350,000 per annum. In accordance with the Constitution, the Board has set the directors fees as follows –

| | |
|-------------------------|--------------------|
| Non-Executive Chairman | \$50,000 per annum |
| Non-Executive Directors | \$36,000 per annum |

The Company also makes statutory superannuation contributions, currently 9% of directors' fees, for the benefit of the directors. There are no schemes for retirement benefits other than statutory superannuation for both executives and non-executive directors.

Fees for non-executive directors are not linked to the performance of the consolidated entity. However, to align directors' interests with those of shareholders, the directors are encouraged to hold shares in the Company.

FINDERS RESOURCES LIMITED

Performance-based remuneration

Short-term incentives

The performance bonus plan was developed and agreed by the Remuneration Committee with the aim of providing alignment between executives and shareholders' interests in respect of the financial performance of the Company. The payment of bonuses and other incentive payments are reviewed by the Remuneration Committee annually as part of the review of executive remuneration and a recommendation is put to the Board for approval. The Board can exercise its discretion in relation to approving bonuses and can recommend changes to the Remuneration Committee's recommendations. Any changes must be justified by reference to measurable performance criteria.

Long-term incentives

The Company has an Employee Share Plan (adopted pursuant to shareholders' approval on 26 May 2011) and an Employee Share Option Plan designed to provide long-term incentives to employees of the consolidated entity.

The Employee Share Plan ("Share Plan") has replaced the option plan. Under the Share Plan, employees are offered the opportunity to acquire shares in the Company at a pre-determined price, funded by a limited recourse interest-free loan from the Company. The shares offered to the employees are subject to vesting conditions (ie. performance hurdles) and are released to the employees only upon the performance hurdles being met and the loans repaid. Participation in the Share Plan is at the discretion of the Board.

Company performance and directors and executive remuneration

At this stage of the Company's development, performance-based bonuses and incentive securities are structured for achieving milestones towards the full scale development of the Wetar Copper Project, including securing finance and meeting development and production targets. Due to the delays in securing permitting for the development of the Project, no securities issued were vested during the year and no bonuses have been paid.

Incentive shares are structured with an emphasis on delivery of the Wetar Copper Project financing and development on time and on budget as well as achieving the nameplate production capacity.

Details of remuneration

The key management personnel of the consolidated entity during the year were –

Directors

| T Quinn Roussel | 36,000 | - | - | - | 36,000 | - |
| Michael H Stirzaker | 14,516 | - | 1,306 | - | 15,822 | - |
| Other key management personnel | | | | | | |
| Chin Haw Lim | 225,000 | - | 15,487 | 82,395 | 322,882 | 26% |
| | 1,465,915 | 76,322 | 72,023 | 511,605 | 2,125,865 | |

* Other employment benefits represent costs of housing, school fees and motor vehicle paid for expatriate employees.

FINDERS RESOURCES LIMITED

Share-based payments

During the year, a total of 800,000 shares were granted to an employee on terms and conditions similar to the Share Plan referred to above at a price of \$0.39 per share. Share-based compensation under which employees purchase shares funded by limited recourse loans from the Company is measured as the value of the option embedded in the shares issued, as follows –

| | | |
|----|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| a) | Number of shares | 800,000 |
| b) | Grant Date | 4 Apr 2012 |
| c) | Expiry date | 31 Mar 2017 |
| d) | Share (exercise) price | \$0.39 |
| e) | Vesting condition | Various performance hurdles aimed at the completion of the Wetar Copper Project development on time and on budget and meeting its production targets |
| f) | Value of embedded option | \$0.085 |
| g) | Maximum total value of option yet to vest | \$67,600 |

Service agreements

The remuneration and terms of engagement of Executive Directors and other key management personnel are formalised in employment and consulting agreements. Key provisions of each of the agreements are set out below. All contracts (other than those in respect of non executive director services) may be terminated early by the Company giving between 1 and 3 months notice, subject to termination payments as detailed below.

| Name | Term of agreement | Base fee/salary | Termination payment |
|-----------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Russell J Fountain Non-Executive Chairman, Senior Consultant, Exploration and Technical Services | 1 Apr 2010 – 31 Mar 2013 for consulting services. Contract to be rolled-over on monthly basis on expiry. | Chairman fee \$50,000 Consulting fee \$100,000 for 104 days/year (inclusive of superannuation) | None for Director services. For consulting services 3 months fee but 6 months fee if termination follows a change in control in the 12 months prior to termination |
| Christopher B Farmer Managing Director | 3 years concluding 22 Mar 2013. Contract to be rolled-over on monthly basis on expiry. | \$350,000 per annum and expatriate benefits plus 9% superannuation | 3 months salary and expatriate benefits but 6 months if termination follows a change in control in the 12 months prior to termination |

FINDERS RESOURCES LIMITED

| Name | Term of agreement | Base fee/salary | Termination payment |
|--------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| James H Wentworth Finance Director | From 1 December 2010 until terminated | \$300,000 per annum (inclusive of superannuation) | 3 months salary/fee but 6 months salary/fee if termination follows a change in control in the 12 months prior to termination |
| Robert P Thomson Executive Director, Development | 3 years commencing 22 Sep 2010. Company has option to renew the agreement for two further terms of 3 years each | \$1,250 per day (inclusive of superannuation) | 3 months fee but 6 months fee if termination follows a change in control in the 12 months prior to termination |
| Chin Haw Lim Chief Financial Officer | 3 years from 10 Nov 2010. Company has option to renew the agreement for one further term of 3 years | \$225,000 per annum (plus superannuation prescribed under superannuation guarantee legislation) | 6 months salary plus 1 month salary for each year of service after a qualifying period of 6 months |

Signed in accordance with a resolution of the Board of Directors.

James H Wentworth

Auditor's Independence Declaration

As lead auditor for the audit of Finders Resources Limited for the year ended 31 December 2012, I declare that to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Finders Resources Limited and the entities it controlled during the period.

A handwritten signature in blue ink, appearing to read 'M Upcroft', is written over a light blue rectangular background.

FINDERS RESOURCES LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2012

NOTE 1: BASIS OF PREPARATION OF FINANCIAL REPORT

Finders Resources Limited is a public company, incorporated and domiciled in Australia whose shares are traded on the Australian Securities Exchange (ASX).

This financial report includes the consolidated financial statements and notes of Finders Resources Limited and controlled entities ("consolidated entity").

The financial report was authorised for issue in accordance with a resolution of the Directors on 15 March 2013. The directors have the power to amend and reissue the financial statements.

a. Statement of Compliance

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Interpretations and the *Corporations Act 2001*. The Company is a for-profit entity for the purpose of preparing the financial statements.

Compliance with IFRS

The financial statements also comply with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

b. Historical Cost Convention

The financial statements have been prepared under the historical cost convention, as modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

c. Going Concern

As stated in previous financial reports, the Group -

- a) has completed a Bankable Feasibility Study on the Wetar Copper Project ("Project") which confirmed the technical feasibility and economic robustness of the Project;
- b) has been granted key mining permits for the Project;
- c) has received credit approval (although such approval will need to be refreshed given the time that has elapsed) for the majority of the financing required for the Project development, comprising US\$138 million from three international mining project financiers (Credit Suisse AG, Barclays Capital and Standard Bank Plc (subsequently replaced by Commonwealth Bank)) and mezzanine finance on a subordinated basis to the senior debt providers;
- d) is awaiting access to the Project area to commence development on the earlier of either the grant of a production stage forestry use permit (referred to as a "Pinjam Pakai" in Indonesia), or the rezoning of parts of the Province of Maluku, including the Project area, from production and conversion forest areas to non-forestry zones.

In February 2013, the Group's application for a *Pinjam Pakai* cleared a critical milestone when an in-principle permit or "*Izin Prinsip*" was granted by the Minister of Forestry. The *Pinjam Pakai* will be issued following the completion of certain administrative requirements specified in the *Izin Prinsip*.

FINDERS RESOURCES LIMITED

The Group is in the process of completing the specified administrative requirements and the Directors are confident the *Pinjam Pakai* will be granted and/or forestry rezoning will occur. Pending the grant of the *Pinjam Pakai* or forestry rezoning, the Group has been able to secure interim funding to support its activities –

- a) In March 2012, the Company raised US\$5.5 million from Standard Bank Plc pursuant to mandatory converting notes (refer Note 15).
- b) In June 2012, the Company secured an increase in a loan facility (from \$8.0 million to \$16.0 million) from three of its major shareholders (“Lenders”) and the loan maturity date was subsequently extended to 24 October 2013 (refer Note 13).
- c) Subsequent to balance date, the Company raised \$3.5 million through a placement of 17.5 million shares at \$0.20 per share pursuant to a subscription agreement with Provident Capital Partners Pte Ltd (“Provident”) (refer Note 30).

At 31 December 2012, the Group had a net current liability position of \$10.826 million. Included in current liabilities is a loan of \$14.44 million from the Lenders, of which \$0.44 million was converted into shares at \$0.20 per share subsequent to balance date. The outstanding loan is repayable on 24 October 2013 unless the Lenders elect to convert the loan at the price of the most recent equity raising conducted by the Company (refer Note 13).

The continuing viability of the Company and its ability to continue as a going concern and meet its debts and commitments as they fall due are dependent upon the timely grant of the *Pinjam Pakai* or completion of the forestry rezoning, the Company being successful in securing project finance and raising additional equity for the Project development and loan repayment and, until project finance is secured, the Company being able to secure interim funding. Until these matters are finalised, there is material uncertainty that may cast significant doubt as to whether the Company will continue as a going concern and, therefore, whether it will realise its assets and settle its liabilities and commitments in the normal course of business and at the amounts stated in the financial report.

The Directors believe that the Company will be successful in the above matters and, accordingly, have prepared the financial report on a going concern basis. At this time, the Directors are of the opinion that no asset is likely to be realised for an amount less than the amount at which it is recorded in the financial report at 31 December 2012. Accordingly, no adjustments have been made to the financial report relating to the recoverability and classification of the asset carrying amounts or the amounts and classification of liabilities that might be necessary should the Company not continue as a going concern.

d. Critical Accounting Estimates and Judgements

The Directors evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the consolidated entity.

Key areas of judgement are –

- Determination of ore reserve and resource estimates
- Capitalisation and impairment of exploration and evaluation costs

FINDERS RESOURCES LIMITED

- Assumptions underlying the valuations of share options issued

Key areas of estimation are –

- Estimation of rehabilitation and restoration costs and the timing of such expenditure
- Review of asset carrying values and impairment charges

The Directors have reviewed the carrying values of assets at balance date and concluded that there has been no impairment. As noted in 1(c), development costs are carried forward on the expectation of the granting of a production stage forestry permit or forestry rezoning.

NOTE 2: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial report are set out below. The accounting policies have been consistently applied, unless otherwise stated.

a. Principles of Consolidation

The consolidated financial statements are those of the consolidated entity, comprising Finders Resources Limited and all entities which Finders Resources Limited controlled from time to time during the year and at balance date. Controlled entities are all those entities over which the consolidated entity has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the consolidated entity controls another entity.

At reporting date, the assets and liabilities of all controlled entities, as well as their results for the period then ended, are incorporated into the consolidated financial statements. Where control of an entity is obtained during a financial year, its results are included from the date on which control commences. Where control of an entity ceases during a financial year its results are included for that part of the year during which control exists. All intercompany balances and transactions, including recognised profits arising from intra-group transactions are eliminated in full. Accounting policies of subsidiaries are changed where necessary to ensure consistencies with those policies applied by the parent entity.

b. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the consolidated statement of comprehensive income over the period of the borrowing using the effective interest method.

The fair value of the liability portion of a convertible note is determined using a market interest rate for an equivalent non-convertible debt instrument. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or maturity of the note. The remainder of the proceeds is allocated to the conversion option. This is recognised and included in shareholders' equity, net of income tax effects.

Borrowings are classified as current liabilities unless the consolidated entity has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

Borrowing costs are capitalised and amortised over the life of the facility.

FINDERS RESOURCES LIMITED

c. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, net of bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the consolidated balance sheet.

d. Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

e. Earnings per Share

Basic earnings per share is determined by dividing net profit attributable to members, adjusted to exclude costs of servicing equity (other than dividends), by the weighted average number of ordinary shares outstanding during the financial year, adjusted for any bonus element.

Diluted earnings per share is determined by dividing net profit attributable to members, adjusted for –

- (i) costs of servicing equity (other than dividends);
- (ii) the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognized as expenses;
- (iii) other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; and
- (iv) by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

f. Employee Benefits

Annual leave and termination benefits

Provision is made for the consolidated entity's liability for annual leave and termination benefits arising from services rendered by employees. Entitlements expected to be settled within 12 months of the balance date are measured at the amounts expected to be paid when the liabilities are settled. All other employee benefit liabilities are measured at the present value of the estimated future payments.

g. Exploration and Development Expenditure

Exploration and evaluation expenditure

Exploration and evaluation expenditure is carried forward in the accounts in respect to areas of interest for which the rights of tenure are current and where –

- (i) such costs are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; or
- (ii) exploration and/or evaluation activities in the area have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active and significant operations in, or in relation to, the area are continuing.

Where the expenditure is expected to be recouped through development and economic exploitation of the area of interest, the accumulated costs are transferred to mine properties and amortised over the life of the mine in proportion to the depletion of the economically recoverable mineral reserves.

Costs carried forward in respect of an area of interest which no longer satisfy the above policy are written off in the period in which that decision is made.

FINDERS RESOURCES LIMITED

Development expenditure

Development expenditure carried forward represents the accumulation of exploration, evaluation and development expenditure.

Amortisation of development expenditure is calculated on a unit-of-production basis so as to write off the cost over the life of the project in proportion to the depletion of the anticipated recoverable mineral reserves.

h. Financial Instruments

Recognition and initial measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Company commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to the consolidated statement of comprehensive income immediately.

Classification and subsequent measurement

Financial instruments are subsequently measured at either fair value, amortised cost using the effective interest rate method, or cost.

Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in the consolidated statement of comprehensive income.

The consolidated entity does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

i. Financial assets at fair value through profit or loss

Financial assets are classified at 'fair value through profit or loss' when they are either held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in the consolidated statement of comprehensive income.

FINDERS RESOURCES LIMITED

ii. Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

iii. Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the consolidated entity's intention to hold these investments to maturity. They are subsequently measured at amortised cost.

iv. Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments. Available-for-sale financial assets are measured at fair value through other comprehensive income.

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Impairment

The consolidated entity assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the consolidated statement of comprehensive income – is reclassified from equity and recognised in the consolidated statement of comprehensive income as a reclassification adjustment. Impairment losses recognised in the consolidated statement of comprehensive income on equity instruments classified as available-for-sale are not reversed through the consolidated statement of comprehensive income.

If there is evidence of impairment for any of the consolidated entity's financial assets carried at amortised cost, the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, excluding future credit losses that have not been incurred. The cash flows are discounted at the financial asset's original effective interest rate. The loss is recognised in the consolidated statement of comprehensive income.

De-recognition

Financial assets are de-recognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are de-recognised where the related obligations are discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in the consolidated statement of comprehensive income.

FINDERS RESOURCES LIMITED

i. Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of each of the subsidiaries is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transactions. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the consolidated statement of comprehensive income, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity, otherwise the exchange difference is recognised in the consolidated statement of comprehensive income.

Subsidiaries

The financial results and position of foreign operations whose functional currency is different from the consolidated entity's presentation currency are translated as follows:

- assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- income and expenses are translated at average exchange rates for the period; and
- retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the foreign currency translation reserve in the consolidated balance sheet. These differences are recognised in the consolidated statement of comprehensive income in the period in which the operation is disposed.

j. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST or Value Added Tax (VAT), except where the amount of GST or VAT incurred is not recoverable from the relevant tax authorities. In these circumstances the GST or VAT is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the consolidated balance sheet are shown inclusive of GST or VAT.

Cash flows are presented in the consolidated cash flow statement on a gross basis, except for the GST or VAT component of investing and financing activities, which are presented as operating cash flows.

k. Impairment of Assets

At each reporting date, the consolidated entity reviews the carrying values of its assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the

FINDERS RESOURCES LIMITED

asset's carrying value over its recoverable amount is expensed to the consolidated statement of comprehensive income.

Where it is not possible to estimate the recoverable amount of an individual asset, the consolidated entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

i. Income Tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company's subsidiaries and associates operate and generate taxable income.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the consolidated statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

m. Inventories

Inventories of copper cathode and work in progress are carried at the lower of cost and net realisable value. Cost includes raw materials, labour and other direct expenditure together with a portion of fixed and variable overhead attributable to the inventory on hand, calculated on a weighted average basis.

Inventories of consumables and spares are valued at cost less, where appropriate, a provision for obsolescence.

n. Leases

Leases of property, plant and equipment where the consolidated entity, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of

FINDERS RESOURCES LIMITED

finance charges, are included in other short-term and long-term payables. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the consolidated statement of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the consolidated entity will obtain ownership at the end of the lease term.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the consolidated entity as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the consolidated statement of comprehensive income on a straight-line basis over the period of the lease.

o. Operating Segments

Operating segment information is based on the consolidated entity's reporting structure and internal reports that are regularly reviewed by the Directors for the purposes of decision making. The consolidated entity is developing a copper project on the Indonesian island of Wetar and conducting mineral exploration on Wetar Island and in Sumatra. The internal reporting structure is focussed on copper mining and exploration which forms the basis for the operating segments.

p. Plant and Equipment

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

The carrying amount of plant and equipment is reviewed annually by the Directors to ensure it is not in excess of the recoverable amount of these assets.

Depreciation

Fixed assets are depreciated over their useful lives commencing from the time the asset is held ready for use.

Depreciation on copper processing plant and equipment is calculated on a unit-of-production basis so as to write off the cost of each asset in proportion to the depletion of the economically recoverable mineral reserves.

Depreciation of other plant and equipment is calculated on a straight line basis so as to write off the cost of each asset over its estimated useful life, generally at a rate of between 12.5% and 25% per annum.

q. Provisions

Provisions are recognised when the consolidated entity has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current assessment of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

FINDERS RESOURCES LIMITED

r. **Rehabilitation and Restoration Costs**

Expenditure relating to ongoing rehabilitation and restoration programmes are provided for or charged to costs of production as incurred. Other rehabilitation and restoration costs are accrued over the life of the mine. The estimated costs are reassessed on a regular basis and changes in estimates are dealt with on a prospective basis. The estimates are based on current costs, current legal requirements and current technology.

s. **Revenue**

Sales of copper cathode are recognised when the title and risk have passed to the customer and the selling price can be determined with reasonable accuracy. All revenue is stated net of the amount of goods and services tax (GST).

Interest revenue is recognised using the effective interest rate method, which for floating rate financial assets is the rate inherent in the instrument.

t. **Share-based Payments**

Share-based compensation benefits are provided to employees under the Company's incentive share and option plans. The fair value of securities granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employee becomes unconditionally entitled to the options.

Share-based compensation under which employees purchase shares funded by limited recourse loans from the Company is measured as the value of the options inherent within the shares issued and is expensed over the vesting period of the shares with a corresponding credit to the share-based payments reserve.

Share-based compensation provided to lenders in relation to an interest bearing loan facility is measured at fair value and is recognised as finance costs with a corresponding increase in equity. The fair value is measured at grant date and recognised over the term of the facility.

u. **Rounding of Amounts to Nearest Thousand Dollars**

The Company is of a kind referred to in Class Order 98/100 dated 10 July 1998 issued by the Australian Securities and Investments Commission and in accordance with that Class Order, amounts in the Directors' Report and the Financial Report have been rounded to the nearest thousand dollars, unless otherwise stated.

v. **New Accounting Standards and Interpretations**

Certain new accounting standards and interpretations have been published that are not mandatory for the 31 December 2012 reporting period. The Group's assessment of the impact of these new standards and interpretations is set out below:

AASB 2011-9 Amendments to Australian Accounting Standards – Presentation of Items of Other Comprehensive Income (effective 1 July 2012)

In September 2011, the AASB made an amendment to AASB 101 *Presentation of Financial Statements* which requires entities to separate items presented in other comprehensive income into two groups, based on whether they may be recycled to profit or loss in the future. This will not affect the measurement of any of the items recognised in the balance sheet or the profit or loss in the current period.

FINDERS RESOURCES LIMITED

AASB 9 Financial Instruments, AASB 2009-11 Amendments to Australian Accounting Standards arising from AASB 9 and AASB 2010-7 Amendments to Australian Accounting Standards arising from AASB 9 (December 2010) and AASB 2012-6 Amendments to Australian Accounting Standards - Mandatory Effective Date of AASB 9 and Transition Disclosures (effective for annual reporting periods beginning on or after 1 January 2015)

AASB 9 *Financial Instruments* addresses the classification, measurement and derecognition of financial assets and financial liabilities. There will be no impact on the Group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated as at fair value through profit or loss and the Group does not have any such liabilities. The derecognition rules have been transferred from AASB 139 *Financial Instruments: Recognition and Measurement* and have not been changed.

AASB 10 Consolidated Financial Statements, AASB 11 Joint Arrangements, AASB 12 Disclosure of Interests in Other Entities, revised AASB 127 Separate Financial Statements and AASB 128 Investments in Associates and Joint Ventures and AASB 2011-7 Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards and AASB 2012-10 Amendments to Australian Accounting Standards - Transition guidance and other Amendments (effective 1 January 2013)

In August 2011, the AASB issued a suite of five new and amended standards which address the accounting for joint arrangements, consolidated financial statements and associated disclosures.

AASB 10 replaces all of the guidance on control and consolidation in AASB 127 *Consolidated and Separate Financial Statements*, and Interpretation 12 *Consolidation – Special Purpose Entities*. The core principle that a consolidated entity presents a parent and its subsidiaries as if they are a single economic entity remains unchanged, as do the mechanics of consolidation. However the standard introduces a single definition of control that applies to all entities. It focuses on the need to have both power and rights or exposure to variable returns before control is present. Power is the current ability to direct the activities that significantly influence returns. Returns must vary and can be positive, negative or both. There is also new guidance on participating and protective rights and on agent/principal relationships. The group does not expect the new standard to have any impact on its financial statements.

AASB 11 introduces a principles based approach to accounting for joint arrangements. The focus is no longer on the legal structure of joint arrangements, but rather on how rights and obligations are shared by the parties to the joint arrangement. Based on the assessment of rights and obligations, a joint arrangement will be classified as either a joint operation or joint venture. Joint ventures are accounted for using the equity method, and the choice to proportionately consolidate will no longer be permitted. Parties to a joint operation will account their share of revenues, expenses, assets and liabilities in much the same way as under the previous standard. AASB 11 also provides guidance for parties that participate in joint arrangements but do not share joint control. As the Group is not party to any joint arrangements, this standard will not have any impact on its financial statements.

AASB 12 sets out the required disclosures for entities reporting under the two new standards, AASB 10 and AASB 11, and replaces the disclosure requirements currently found in AASB 128. Application of this standard by the Group will not affect any of the amounts recognised in the financial statements, but will impact the type of information disclosed in relation to the group's investments.

FINDERS RESOURCES LIMITED

AASB 127 is renamed *Separate Financial Statements* and is now a standard dealing solely with separate financial statements. Application of this standard by the Group will not affect any of the amounts recognised in the financial statements.

Amendments to AASB 128 provide clarification that an entity continues to apply the equity method and does not remeasure its retained interest as part of ownership changes where a joint venture becomes an associate, and vice versa. The amendments also introduce a “partial disposal” concept. The Group does not expect the new standard to have any impact on its financial statements.

AASB 13 Fair Value Measurement and AASB 2011-8 Amendments to Australian Accounting Standards arising from AASB 13 (effective 1 January 2013)

AASB 13 was released in September 2011. It explains how to measure fair value and aims to enhance fair value disclosures. The Group does not use fair value measurements extensively. It is therefore unlikely that the new rules will have a significant impact on any of the amounts recognised in the financial statements. However, application of the new standard will impact the type of information disclosed in the notes to the financial statements.

Revised AASB 119 Employee Benefits, AASB 2011-10 Amendments to Australian Accounting Standards arising from AASB 119 (September 2011) and AASB 2011-11 Amendments to AASB 119 (September 2011) arising from Reduced Disclosure Requirements (effective 1 January 2013)

In September 2011, the AASB released a revised standard on accounting for employee benefits. It requires the recognition of all remeasurements of defined benefit liabilities/assets immediately in other comprehensive income (removal of the so-called 'corridor' method) and the calculation of a net interest expense or income by applying the discount rate to the net defined benefit liability or asset. This replaces the expected return on plan assets that is currently included in profit or loss. The standard also introduces a number of additional disclosures for defined benefit liabilities/assets and could affect the timing of the recognition of termination benefits. As the Group does not have any defined benefit obligations, the amendments will not have any impact on the Group's financial statements.

AASB 2011-4 Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements (effective 1 July 2013)

In July 2011 the AASB decided to remove the individual key management personnel (KMP) disclosure requirements from AASB 124 *Related Party Disclosures*, to achieve consistency with the international equivalent standard and remove a duplication of the requirements with the *Corporations Act 2001*. While this will reduce the disclosures that are currently required in the notes to the financial statements, it will not affect any of the amounts recognised in the financial statements. The amendments apply from 1 July 2013 and cannot be adopted early. The *Corporations Act* requirements in relation to remuneration reports will remain unchanged for now, but these requirements are currently subject to review and may also be revised in the near future.

AASB Interpretation 20 Stripping Costs in the Production Phase of a Surface Mine and AASB 2011-12 Amendments to Australian Accounting Standards arising from Interpretation 20 (effective 1 January 2013)

Interpretation 20 sets out the accounting for overburden waste removal (stripping) costs in the production phase of a mine. It states that these costs can only be recognised as an asset if they can be attributed to an identifiable component of the ore body, the costs relating to the

FINDERS RESOURCES LIMITED

improved access to that component can be measured reliably and it is probable that future economic benefits associated with the stripping activity (improved access to the orebody) will flow to the entity. The costs will be amortised over the life of the identified component of the ore body. The group has not yet undertaken any stripping activities and in light of the requirements of the interpretation, will adopt the interpretation from 1 January 2013.

AASB 2012-3 Amendments to Australian Accounting Standard - Offsetting Financial Assets and Financial Liabilities and AASB 2012-2 Disclosures - Offsetting Financial Assets and Financial Liabilities (effective 1 January 2014 and 1 January 2013 respectively)

In June 2012, the AASB approved amendments to the application guidance in AASB 132 *Financial Instruments: Presentation*, to clarify some of the requirements for offsetting financial assets and financial liabilities in the balance sheet. These amendments are effective from 1 January 2014. As the Group does not have any offsetting arrangements, the amendments will not have any impact on the Group's financial statements. The AASB has also introduced more extensive disclosure requirements into AASB 7 which will apply from 1 January 2013. The Group intends to apply the new rules, if applicable, for the first time in the financial year commencing 1 January 2014.

| | | 11,492 | 6,037 |

FINDERS RESOURCES LIMITED

a) Convertible note

Pursuant to a US\$1.5 million 12% Convertible Note Facility Agreement, the Note was convertible into shares in the Company at the option of the noteholder, and if not converted, repayable on 19 January 2012. The Note was converted into 3,992,207 shares in the Company at an issue price of \$0.36 per share on maturity.

| | 2012 \$'000 | 2011 \$'000 |
|----------------------------------------------------|----------------|----------------|

| Exchange rate effect | - | (795) |
| | - | 1,477 |
| | - | 1,477 |

The convertible note was secured by a fixed and floating charge over the assets of the parent entity. The book value of the assets at 31 December 2011 was \$78.7 million.

b) Loan (unsecured)

In October 2011, the Company secured a loan facility (“Facility”) of \$8.0 million from two of its major shareholders, Resource Capital Funds (“RCF”) and Taurus Funds Management Pty Limited (“Taurus”). The Facility is unsecured and is repayable on the earlier of either the project equity raising for the development of the Wetar Copper Project, or 24 October 2012. Interest at the rate of 8% per annum is payable on the loan. In consideration for the loan, the company issued 16,000,000 options over shares in the Company to the lenders, exercisable at \$0.50 per share and expiring on 24 October 2014.

In June 2012, the Facility was increased by \$8.0 million, with another major shareholder, Acorn Capital Limited (“Acorn”), joining RCF and Taurus as a lender (collectively “the Lenders”). In consideration for the increased facility, the Company granted options over a total of 22,857,144 shares in the Company to the Lenders, exercisable at \$0.35 per share and expiring on 6 June 2017.

In October 2012, the Lenders agreed to extend the deadline for repayment of the \$16.0 million facility for a further 12 months to 24 October 2013 to allow permitting and project financing to be completed. In consideration for the extension, the Company granted options over a total of 31,298,904 shares in the Company to the Lenders, exercisable at \$0.2556 per share and expiring on 22 October 2017.

In December 2012, Acorn elected to convert their outstanding loan of \$2.0 million to shares at a conversion price of \$0.20 per share. A total of 10 million shares have been issued to Acorn, 7.8 million in December 2012 and 2.2 million in January 2013.

| 31 Dec 2011 | Balance at end of financial year | 279,978 | | 86,747 |

Subsequent to balance date, the following shares were issued -

- (i) Following shareholders' approval at an Extraordinary General Meeting held on 18 January 2013, the Company issued 17.5 million shares at \$0.20 per share to raise \$3.5 million pursuant to a subscription agreement with Provident Capital Partners Pte Ltd. Pursuant to the agreement, the Company also issued 50 million options exercisable at \$0.20 per share and expiring on 30 September 2013 to the investors.
- (ii) 2.2 million shares were issued at \$0.20 per share on conversion of loans amounting to \$440,000 (refer Note 13(b)).

b) Employee incentive shares

The Company has issued incentive shares to employees and executive directors under the Finders Employee Share Plan. This share-based compensation under which the employees and executive directors purchase shares funded by limited recourse loans from the Company is measured as the value of the options inherent within the shares issued and is expensed over the vesting period of the shares with a corresponding credit to the share-based payments reserve.

c) Converting Notes

The Company raised US\$5,500,000 from Standard Bank Plc pursuant to mandatory Converting Notes, which will convert into 12,248,538 shares in the Company on or before 16 March 2018 at a conversion price of \$0.427 per share. The Notes will convert into shares and have been treated as equity for accounting purposes.

FINDERS RESOURCES LIMITED

d) Ordinary shares

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held.

At a general meeting on a show of hands, each shareholder present has one vote and on a poll each shareholder present has:

- (i) one vote for each fully paid share held; and
- (ii) for each share which is not fully paid a fraction of a vote equivalent to the proportion which the amount paid up, but not credited as paid up, on that share bears to the total of the amounts paid and payable (excluding amounts credited) on that share.

e) Capital management

At this stage of the consolidated entity's development, its funding requirements have largely been sourced from equity funds. Its objectives in capital management are to ensure that the consolidated entity can meet its debts as and when they become due and payable and to maintain an optimal capital structure to reduce the cost of capital

Consistent with the above objectives, the Company has raised funds from share placements and a convertible equity linked facility to advance the development of the Wetar Copper Project and for working capital.

NOTE 17: RESERVES

| | | |
|--------------------------------------|---------|---------|
| Equity reserve | 5,095 | 547 |
| Foreign currency translation reserve | (2,050) | (1,644) |
| Share-based payments reserve | 1,607 | 1,066 |
| | 4,652 | (31) |

a) Equity reserve

The equity reserve arises from the acquisition of shares in a controlled entity from a minority shareholder and the value of conversion rights attached to the convertible note and options granted.

b) Foreign currency translation reserve

The foreign currency translation reserve records exchange differences arising on translation of foreign controlled subsidiaries.

c) Share-based payments reserve

The share-based payments reserve is used to recognise the fair value of equity instruments issued to employees.

FINDERS RESOURCES LIMITED

NOTE 21: OPERATING SEGMENTS

The consolidated entity operates in two geographical locations, being Australia and Indonesia. Its minerals business is based in Indonesia where it is developing a copper project on the island of Wetar and conducting mineral exploration on Wetar Island and Sumatra. Copper mining is centred on the Wetar Project where it operated a demonstration plant from February 2009 to December 2010. The demonstration plant had a production capacity of 5 tonnes of copper cathode per day.

The segment result comprises all costs directly attributable to the two operating segments in Indonesia.

NOTE 23: SHARE-BASED PAYMENTS

a) Expense arising from share-based payments

| | | |
|-------------------------------------------------|------------|------------|
| Options issued under Employee Share Option Plan | 95 | 214 |
| Shares issued under employee share scheme | 446 | 508 |
| | <u>541</u> | <u>722</u> |

The Company had an Employee Share Option Plan which was replaced by an employee share scheme during the year. These are designed to provide long-term incentives to employees of the consolidated entity. The schemes are administered by the Directors who have power to determine the terms and conditions of the shares and options issued to eligible employees. Participation is at the discretion of the Board.

FINDERS RESOURCES LIMITED

b) Shares granted

The Company has granted the incentive shares set out below to employees of the consolidated entity.

| Grant Date | Expiry Date | Exercise Price | Number | | Vested and exercisable | |
|-------------|-------------|----------------|--------------|--------------|------------------------|--------------|
| | | | 2012 '000 | 2011 '000 | 2012 '000 | 2011 '000 |
| 04 Apr 2012 | 31 Mar 2017 | \$0.39 | 800 | - | - | - |
| 21 Jan 2011 | 30 Nov 2015 | \$0.43 | 3,350 | 3,350 | - | - |
| 20 Apr 2011 | 20 Apr 2016 | \$0.43 | 1,000 | 1,000 | - | - |
| 30 Nov 2010 | 30 Nov 2015 | \$0.43 | 2,932 | 3,732 | - | - |
| | | | 8,082 | 8,082 | - | - |

Fair value of shares granted

The fair value of the shares granted during the year were measured as the value of the options inherent within the shares issued (Note 2(t)) and were estimated using the Black Scholes option pricing model with the assumptions below. The expected price volatility is based on the historic volatility (based on the life of the options inherent within the shares issued), adjusted for any expected changes to future volatility derived from publicly available information.

| Number '000 | Grant date | Expiry date | Exercise price | Share price at grant date | Risk free rate | Volatility |
|----------------|------------|-------------|----------------|---------------------------|----------------|------------|
| 800 | 4 Apr 2012 | 31 Mar 2017 | \$0.39 | \$0.39 | 3.36% | 45.0% |

FINDERS RESOURCES LIMITED

NOTE 27: RELATED PARTY TRANSACTIONS

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

(a) Parent entity

Finders Resources Limited is the ultimate parent entity of the group. Interests in subsidiaries are set out in Note 20.

| | 2012 \$'000 | 2011 \$'000 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|----------------|
| (b) Directors and director-related entities | | |
| Copper cathode sales by a subsidiary, PT Batutua Tembaga Raya, to Tennant Metals Pty Ltd (a company in which Mr M H Stirzaker, a former Director of the Company, was a significant shareholder) pursuant to a Copper Cathode Sales Agreement dated 10 January 2008 (as amended) | - | 809,060 |
| Outstanding balance | - | - |

(c) Key Management Personnel

Disclosures relating to key management personnel are set out in Note 22 and the Remuneration Report.

NOTE 28: FINANCIAL RISK MANAGEMENT

The consolidated entity is headquartered in Australia and operates in Indonesia where it will be developing the full scale Wetar Copper Project and conducting exploration on Wetar Island and at the Ojolali gold-silver project in Sumatra. It is exposed to a variety of financial risks: market risk (including foreign exchange risk, commodity price risk and fair value interest rate risk), credit risk and liquidity risk.

The Board has overall responsibility for the determination of the consolidated entity's risk management objectives and policies. The consolidated entity's risk management program focuses on the unpredictability and volatility of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity without unduly affecting its ability to operate and function.

In respect to foreign currency risk, the Board has retained an external consultant to advise on this risk.

a) Market Risk

i) Foreign currency risk

The consolidated entity operates in Indonesia and is exposed to foreign exchange risk arising from currency exposures, primarily the United States Dollar and the Indonesian Rupiah. Until February 2011 the exposure to the United States Dollar was partially mitigated by the natural hedge provided by United States Dollar receipts generated from copper sales.

FINDERS RESOURCES LIMITED

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities that are denominated in a currency that is not the consolidated entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

ii) Commodity price risk

The consolidated entity is exposed to adverse movements in the price of copper. The risk could be managed through the use of derivative financial instruments such as forward sale and option contracts. However the consolidated entity has not entered into any hedging instruments due to the unpredictability of copper production from the demonstration plant and the prohibitive cost of buying options.

iii) Interest rate risk

The consolidated entity is exposed to interest rate risk through its cash deposits held with banks.

iv) Credit Risk

Credit risk is the risk that counterparties may default on their contractual obligation, resulting in a financial loss to the consolidated entity. The risk arises from cash and deposits with financial institutions and credit exposures to trade customers. The consolidated entity minimises this risk by maintaining its banking and sales relationships with credit-worthy parties.

v) Liquidity risk

Liquidity risk is the risk that the consolidated entity will encounter difficulty in meeting obligations associated with financial liabilities. The consolidated entity manages its liquidity risk by closely monitoring its forecast and actual cash flows. Until February 2011 the consolidated entity generated some cash flow from the Wetar Copper Project. Its additional funding requirements are sourced from debt finance and equity raisings. The appropriate level of liquidity is determined by cash flow forecasting. Surplus funds are invested on short-term deposits.

b) Financial instrument composition and maturity analysis:

The tables below reflect the undiscounted contractual settlement terms for financial instruments of a fixed period of maturity, as well as management's expectations of the settlement period for all other financial instruments.

The total contractual cash flows at each maturity date is equal to the carrying value except for a convertible note and loans in the tables below. The convertible note had a face value of US\$1,500,000 (2011: \$1,477,000) and was converted into shares on 19 January 2012. The unsecured loans have a face value of \$14,440,000 (2011: \$6,500,000).

FINDERS RESOURCES LIMITED

c) Net Fair Values

All financial assets and liabilities included in the balance sheet are carried at amounts approximate to fair value, except for the convertible note which had a fair value at 31 December 2011 of \$1,477,000. Under the accounting standards, the convertible note was classified as Level 3 in the fair value measurement hierarchy, that is, the inputs for the fair value measurement is not based on observable market data.

d) Sensitivity Analysis

Interest Rate Risk, Foreign Currency Risk and Commodity Price Risk

The consolidated entity has performed sensitivity analysis relating to its exposure to interest rate risk, foreign currency risk and commodity price risk at balance date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

Commodity price sensitivity analysis

The effect on profit and equity as a result of changes in the price of copper, with all other variables remaining constant would be as follows:

| | 2012 | 2011 |
|-----------------------------------|---------------|---------------|
| | \$'000 | \$'000 |
| Change in profit | | |
| - Increase in copper price by 10% | - | 90 |
| - Decrease in copper price by 10% | - | (90) |
| Change in total equity | | |
| - Increase in copper price by 10% | - | 90 |
| - Decrease in copper price by 10% | - | (90) |

Interest rate sensitivity analysis

The effect on profit and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

| | | |
|-----------------------------------|-------------|-------|
| Change in profit | | |
| - Increase in interest rate by 2% | 26 | 117 |
| - Decrease in interest rate by 2% | (26) | (117) |
| Change in total equity | | |
| - Increase in interest rate by 2% | 26 | 117 |
| - Decrease in interest rate by 2% | (26) | (117) |

Foreign Currency Risk Sensitivity Analysis

The effect on profit and equity as a result of changes in the value of the Australian Dollar to the United States Dollar, with all other variables remaining constant is as follows:

| | | |
|-----------------------------------|--------------|-------|
| Change in profit | | |
| - Improvement in AUD to USD by 5% | 265 | 406 |
| - Decline in AUD to USD by 5% | (265) | (406) |
| Change in total equity | | |
| - Improvement in AUD to USD by 5% | 265 | 406 |
| - Decline in AUD to USD by 5% | (265) | (406) |

FINDERS RESOURCES LIMITED

Foreign Currency Risk Sensitivity Analysis

The effect on profit and equity as a result of changes in the value of the Australian Dollar to the Indonesian Rupiah, with all other variables remaining constant is as follows:

| | 2012 | 2011 |
|-----------------------------------|---------------|---------------|
| | \$'000 | \$'000 |
| Change in profit | | |
| - Improvement in AUD to IDR by 5% | 135 | 148 |
| - Decline in AUD to IDR by 5% | (135) | (148) |
| Change in total equity | | |
| - Improvement in AUD to IDR by 5% | 135 | 148 |
| - Decline in AUD to IDR by 5% | (135) | (148) |
| | (135) | (148) |

Guarantees entered into by the parent entity

No guarantees were entered into by the parent entity.

Contingent liabilities of the parent entity

There are no contingent liabilities.

Contractual commitments for the acquisition of property, plant and equipment

No contractual commitments were entered into by the parent entity.

30. EVENTS AFTER BALANCE DATE

Subsequent to balance date -

- a) The in-principle permit or "*Izin Prinsip*" in connection with the Group's application for an *Pinjam Pakai* for the Wetar Copper Project was granted by the Forestry Department. Subject to completion of a number of administrative requirements specified in the *Izin Prinsip*, the *Pinjam Pakai* will be issued, at which time construction can commence.
- b) Following shareholders' approval at an Extraordinary General Meeting held on 18 January 2013, the Company issued 17.5 million shares at \$0.20 per share to raise \$3.5 million from a placement pursuant to a subscription agreement with Provident Capital Partners Pte Ltd. Pursuant to the agreement, the Company also issued 50 million options exercisable at \$0.20 per share and expiring on 30 September 2013 to the investors.
- c) 2.2 million shares were issued at \$0.20 per share on conversion of loans amounting to \$440,000 (refer Note 13(b)).

FINDERS RESOURCES LIMITED

DIRECTORS' DECLARATION

In the opinion of the Directors:

1. the financial statements and notes set out on pages 16 to 55 are in accordance with the *Corporations Act 2001* and:
 - a. comply with Accounting Standards and the Corporations Regulations 2001; and
 - b. give a true and fair view of the consolidated entity's financial position as at 31 December 2012 and of its performance for the year ended on that date;
2. there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Note 1(a) confirms that the financial statements comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The Directors have received the declarations by the Chief Executive Officer and Chief Financial Officer pursuant to section 295A of the *Corporations Act 2001*.

Signed in accordance with a resolution of the Board of Directors.

James H Wentworth
Finance Director
Sydney
15 March 2013

Independent auditor's report to the members of Finders Resources Limited

Report on the financial report

We have audited the accompanying financial report of Finders Resources Limited (the company), which comprises the consolidated balance sheet as at 31 December 2012, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, a summary of significant accounting policies, other explanatory notes and the directors' declaration for the Finders Group (the consolidated entity). The consolidated entity comprises the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our procedures include reading the other information in the Annual Report to determine whether it contains any material inconsistencies with the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's opinion

In our opinion:

- (a) the financial report of Finders Resources Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 31 December 2012 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and
- (b) the financial report and notes also comply with International Financial Reporting Standards as disclosed in Note 1.

Material Uncertainty Regarding Continuation as a Going Concern

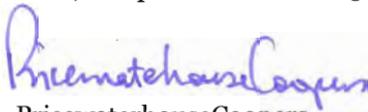

Without qualifying our opinion, we draw attention to Note 1 in the financial report, which comments on the status of the Project and additional debt and equity funding requirements. These conditions, along with other matters as set forth in Note 1 indicate the existence of a material uncertainty that may cast significant doubt about the entity's ability to continue as a going concern and therefore the entity may be unable to realise its assets and discharge its liabilities in the normal course of business and at the amounts stated in the financial report.

Report on the Remuneration Report

We have audited the remuneration report included in pages 10 to 14 of the directors' report for the year ended 31 December 2012. The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion

In our opinion, the remuneration report of Finders Resources Limited for the year ended 31 December 2012, complies with section 300A of the *Corporations Act 2001*.
