FINDERS RESOURCES LIMITED

## WETAR COPPER PROJECT- COPPER CATHODE PRODUCTION RESUMED

Finders is pleased to advise that the defective component in the electrowinning circuit at its Wetar Copper Project demonstration plant has been replaced, with electrowinning re-started on Sunday 15<sup>th</sup> February, and cathodes harvested on Tuesday 17<sup>th</sup>.

Mining grade, heap leaching rates and solvent extraction plant performance continue to exceed expectations, and the demonstration plant is expected to reach its nameplate 5.7 tonne copper cathode per day capacity before the end of February.
