Remuneration Report - Correction

The Finders Resources Limited remuneration report for the year ended 31st December 2010 is set out in the financial report lodged on 22nd March 2011 with the ASX.

It has come to our attention that the remuneration totals reported in the tables on Page 42 and in Note 23 (Page 74) of these financial statements are incorrect.

These totals have been corrected in the 2010 Annual Report lodged today with the ASX.

The reported remuneration for each key management person is correctly stated and remains unchanged (refer Page 31 of Annual Report 2010 lodged today).
